

# Voice to Text for iPhone

To use voice-to-text on an iPhone for notes, you can:

1. Open the Notes app
2. Tap a note to open the keyboard
3. Tap the microphone button on your keyboard
4. Start speaking
5. Stop speaking
6. Tap the keyboard button

**You can also use voice-to-text in other ways:**

- Dictate anywhere: Use Dictation anywhere you can type it
- Use typing and Dictation together: The keyboard stays open during Dictation so you can switch between voice and touch to enter text
- Insert text by dictating: Tap to place the insertion point, then press the dictation shortcut key twice

**To enable voice-to-text on an iPhone, you can:**

1. Go to Settings
2. Select General
3. Select Keyboard
4. Turn on Enable Dictation
5. Choose a dictation shortcut

**You can also have your iPhone read text to you. To do this, you can:**

1. Go to Settings
2. Select Accessibility
3. Select Spoken Content
4. Turn on Speak Selection
5. Select the text you want your device to read
6. Tap the arrow on the right until Speak appears
7. Tap Speak to hear your selected text aloud
